

## About

# Dr. Quenby Erickson

**Located on Chicago's Magnificent Mile, Dr. Quenby Erickson has created a serene and luxurious clinic where local and international clientele rejuvenate** at the hands of her masterful techniques and state-of-the-art services. She is well-known for her natural-looking results and gentle touch. "Having had many artists of varied mediums throughout my family, cosmetic dermatology is my passion and artistry," she says. Honing her artistry during her training in Mohs Micrographic Surgery at MD Anderson Cancer Center, she focused intensely on reconstructive aesthetics. She previously served in the United States Air Force, where she achieved the rank of Major and was a recipient of the Meritorious Service Medal before being honorably discharged. Dr. Erickson creates a comprehensive pathway for rejuvenation using lasers, injectables and body treatments to help her clients live life more beautifully.

"I am changing the definition of what it means to age gracefully."

### Turning Back the Clock

For a more youthful look, this 40-year-old patient had a microneedling with PRP treatment along with Jeuveau, Juvéderm® Ultra Plus and Juvéderm Voluma injections.

### Injectable Rejuvenation

To treat her marionette lines and volume loss in her lower face, this 51-year-old patient underwent Juvéderm Voluma injections along the jawline and Vollure around the mouth.
